Birmingham, AL 35213

Subject: Greg Wheeler for the ICC Board of Directors

Dear Chairman Brothers and Committee Members

The Colorado Association of Permit Technicians is unanimous in our support of Greg Wheeler for a position on the Board of Directors of the International Code Council.

Greg understands all building department personnel are essential in safeguarding and serving the public. Recently Greg has participated in discussions to create a training program in Colorado to enhance the permit techs involvement as part of our states 'after the disaster' network.

He recognizes governmental regulators are one piece of the building safety team - design professionals, contractors, product manufacturers, building owners and more also play an important role in obtaining a safe and sustainable built environment.

As a member of the Board of Directors, we believe Greg will excel in helping to guide the business of the International Code Council while remaining focused on how to best serve all the members of the building safety team.

Yours in Building Safety,

Darla Brooks, President
Colorado Association of Permit Technicians
