PAST PRESIDENT

Jessica Sorensen
Town of Parker
303-841-1970

Hard to believe it is already the middle of June, welcome warmth.

The July meeting is fast approaching. I know summer is a very busy time for our profession but hoping all can slip away for a day of training in beautiful Black Hawk, Colorado. A huge thank you to the City of Black Hawk, Cindy Linker and Janice Beecher for always being available to host in this beautiful mountain town. CAPT is offering an amazing training opportunity so don't miss out on this beneficial day.

Congratulations to our neighbors in Wyoming—on becoming an official ICC Chapter. So excited for them and their future.

The Colorado Chapter of the ICC is moving their March Institute North. The Embassy Suites in Loveland, Colorado will be hosting for the next two years. I had the opportunity to view this venue and it is spectacular. March 2020 is the 35th year anniversary of the institute. Mark your calendars for an exciting learning experience.

Opportunities to host a CAPT meeting are available for 2020. There will be forms available at the July meeting if you are interested. They will also go out to membership in July via email.

***Leslie Carpenter
CAPT President***

DON'T MISS THE NEXT CAPT MEETING

Friday, July 26, 2019

**Hosted by the City of Black Hawk
Janice Beecher
Emergency Operations Center
911 Miners Mesa Road
Black Hawk, Colorado**

**Please RSVP to Darla Brooks, CAPT Program Chair,
720-874-6609 or dbrooks@arapahoegov.com**

Registration Fee: \$35.00 - Cash or Check Payable to CAPT at the door
(Registration Fee Includes Breakfast, Breaks, Lunch, Instructional Material
and is Non-refundable)

Plans Examiner Class

Time: 9-12 and 1-3 (6 contact hours - .6 ICC CEU's)

Description:

This one day class is designed to provide a detailed review of the most critical elements of residential plan review for dwelling units covered by the 2018 International Residential Code. Navigating the code book to provide a logical path for reviewing plans, the students will learn to "follow the recipe" for a thorough examination of a set of residential plans. Excellent class for those preparing to take the Residential Plans Examiner test, or for those looking to improve their understanding of the 2018 IRC.

Instructor:

Sharon Bonesteel, AiA, CBO

Senior Policy Analyst and Manager of Salt River Project's Building Energy Codes Program Licensed Architect in Arizona and California, AZ Certified Fire Inspector, RESNET, ICC Certified Building Official and Commercial Energy Inspector SRP's voting representative to the ICC Code Development Process SRP's Energy Storage Collaboration Team Leader

ABM

May CAPT Meeting Highlights

Thank you to the Town of Bennett and Sara Aragon for hosting the May CAPT meeting. It's always a great experience to travel outside the Denver boundaries to learn about towns and cities throughout Colorado. The meeting was very well attended and a lot of fun.

The Town of Bennett is a growing community on the western edge of the Eastern plains of Colorado. The Town is conveniently located 25 minutes from Downtown Denver. The Town was incorporated in 1930 and has steadily grown into a thriving and self-sustaining community within an excellent public school system, abundant open spaces and trails, and a growing hub for goods and services along the I-70 corridor. Furthermore, there is available land that is entitled for development, making Bennett an inviting place to do business. Today, Bennett is poised for the future with forward thinking planning efforts underway as the community is ready to move forward with a thoughtful and straight forward development process to encourage economic development that is consistent with the goals and small town character of the Town and surrounding area.

Thank you to the Community Development Manager, Deb Merkle, for introducing the town and a bit of history past and present. What a pleasant surprise to have Tom Pitchford in attendance. Tom is Past President of the Colorado Chapter and the new building official for the Town of Bennett. Tom gave an update on Chapter business. Congratulations Tom and thank you for helping out at the business meeting.

The training session was a conclusion on Chapter 3 of the IBC instructed by Glenn Mathewson. The meeting was well attended and training very beneficial.

Why renewing your certification is critical:

You are among a select group of individuals nationwide who have attained high credibility and recognition through the Certification program. Renewing your certificates will allow you to retain this professional stature. Certification renewal: Certifications are valid for three (3) years. Certificates must be renewed on or before the expiration date to remain current. Prior to the expiration date, a courtesy renewal notice will be sent to the contact information in your myICC account. If for any reason you do not receive this notice, you may obtain renewal information specific to your certification from www.iccsafe.org/renewals

Note: You are responsible for renewing your certifications, whether or not you receive a renewal notice from ICC. Accruing CEUs: During the three (3) year period prior to the renewal processing date, you must accrue the number of continuing education units (CEUs) required for your certificate. Renewal is achieved by participating in continuing education and professional development activities. For example, a seminar you attended to earn CEUs must have been within the three (3) years prior to the renewal processing date (when the CEU becomes inactive). You must keep documents and records of each activity during the three (3) year renewal period. Note: CEU applications are subject to random audits.
